

LET'S RENOVATE AND BUILD TOGETHER

TM Rakennusmaailma is a special interest magazine for those interested in homes, construction, and renovation. Its readers want to know about the many methods of building and renovating, as well as about products and tools. The magazine's readers are educated and, on average, better off financially, and they are dedicated hobbyists and professionals.

A key part of TM Rakennusmaailma's content is various tests and comparisons. The magazine regularly tests building materials, supplies, tools, industry machinery, and different services, always completely impartially, just like Tekniikan Maaailma. The magazine also produces **a comprehensive special issue on the Lempäälä Housing Fair.**

TM Rakennusmaailma is published 12 times a year. The magazine also has a digital service at rakennusmaailma.fi, where you can find industry news, the digital magazine, and a comprehensive archive of back issues.
