

NATURE AND QUALITY VALUED BY OUTDOOR ENTHUSIASTS

Erä is Finland's largest magazine for anglers and those who enjoy spending time in nature. Erä readers are willing to make an effort to gain experiences. With the right equipment, one gets the most out of outdoor hobbies, and Erä's tests and comparisons help readers choose fishing, hunting, and hiking gear. Among the readers are both experienced and beginner recreational anglers, long-distance Lapland hikers, as well as those who enjoy day trips in nearby nature and visit national parks in Southern Finland. Readers are united by an active, often passionate relationship with nature. Hobbyist anglers look for tips in Erä's articles on new fishing methods, equipment, and how to get the best culinary enjoyment from fish caught for food. Hikers get information about interesting destinations and useful, functional equipment. For hunters, Erä offers help both for starting and deepening the hobby.

Erä is published 12 times a year. [Erälehti.fi](https://eralehti.fi) expands the service for readers online, for example with current news, digital magazines, and an archive of over 20 years of back issues.
